

**CLEAN ENERGY
SOLUTIONS CENTER**

Information Technology Solutions for Boosting Procurement Monitoring

October 23, 2014

 **CLEAN ENERGY
SOLUTIONS CENTER**
ASSISTING COUNTRIES WITH CLEAN ENERGY POLICY

- *The Clean Energy Solutions Center does not endorse or recommend specific products or services. Information provided in this webinar is featured in the Solutions Center's resource library as one of many best practices resources reviewed and selected by technical experts*

Two Options for Audio (select audio mode):

1. *Listen through your computer.*

- Please select the “mic and speakers” radio button on the right hand audio pane display

2. *Listen by telephone.*

- Please select the “telephone” option in the right-hand display, and a phone number and PIN will display.

3. *Panelists - Please mute your audio device when not presenting*

4. *Technical Difficulties:*

- *Contact the GoToWebinars Help Desk: 888.259.3826*

- **To ask a question**
 - Select the 'Questions' pane on your screen and type in your question
- **Having trouble viewing the webinar?**
 - PDFs of the presentations can be accessed at <https://cleanenergysolutions.org/training>
- **Share with others or watch it again**
 - A video/audio recording of this Webinar and the slide decks will be made available at: <https://cleanenergysolutions.org/training>
- **Recordings are also available on our YouTube channel**
 - <http://www.youtube.com/user/cleanenergypolicy>

1

Welcome & Introductory Remarks

2

Overview of the Clean Energy Solutions Center

- Sean Esterly, National Renewable Energy Laboratory

3

Presentations

- Aure Adell, Project Manager, Ecoinstitut
- Christopher Payne, Group Leader, Sustainable Federal Operations Group
- Liisi Liivlaid, Senior Officer, Estonia Ministry of Environment

4

Question and Answer Session

5

Attendee Survey

The Clean Energy Ministerial (CEM) launched the Clean Energy Solutions Center in April 2011. The Solutions Center:

- Is one of 13 CEM Initiatives, which include:
 - Global Superior Energy Performance Partnership
 - Super-Efficient Equipment and Appliance Deployment initiative
 - Global Lighting and Energy Access Partnership
- Helps governments design and adopt policies and programs that support the deployment of clean energy technologies
- Has more than 35 partners, including IRENA, IEA, IPEEC, Sustainable Energy for All, Bloomberg New Energy Finance and Leonardo Energy
- Is co-chaired by the U.S. Department of Energy and the Australian Department of Industry.

Australia

Denmark

India

Indonesia

Italy

Japan

Mexico

South Africa

Sweden

United Arab Emirates

United States

Goals

- **Serve** as the primary resource for clean energy policy information, assistance and peer learning for governments and government-affiliated practitioners..
- **Share** policy best practices, data, and analysis tools across countries.
- **Deliver** dynamic services that enable expert assistance, learning, and peer-to-peer sharing of experiences.
- **Foster** dialogue on emerging policy issues and innovation across the globe.

Primary

- Government Policy Makers
- Advisors

Secondary

- Private Sector Companies
- Energy Entrepreneurs and Investors
- Non-Governmental Organizations
- Civil Society
- Others Engaged in Clean Energy

Target Audiences

Ask-an-Expert: Our Experts in Action

8

CleanEnergySolutions.org

Connects policymakers to a global network of more than 30 energy experts for quick-response technical assistance on policies and programs relating to:

- Transportation
- Renewable Energy
- Energy Access
- Energy Efficiency
- Smart Grid
- Integrated Planning
- Regulators and Utilities

Delivered no-cost assistance for more than 120 requests from over 60 countries.

Please contact me directly to find out if the Ask-an-Expert program can benefit your work:

Aure Adell, Project Manager, Ecoinstitut

9

Aure Adell has been a member of Ecoinstitut since 2001, and she has more than 15 years of experience in the area of sustainable public procurement, from the analysis of SPP policies and strategies at local, national and international level to the direct support to public and private organizations in its implementation (in tender greening, providing training in different countries and types of organizations, etc.). She was the main author of The SEAD Guide for Monitoring and Evaluating Green Public Procurement. At present, she coordinates the international working group on monitoring SPP implementation within the UN 10-year Framework Programme on Sustainable Public Procurement.

Christopher Payne, Group Leader, Sustainable Federal Operations Group

10

Dr. Payne is the Group Leader for the Sustainable Federal Operations Group, which provides policy and technical support to headquarters staff in several DOE offices. In addition to these administrative duties, Dr. Payne leads an LBL project team in support of the Federal Energy Management Program's [Energy Efficient Product Procurement](#) program. The U.S. federal government is the largest volume buyer of energy-consuming products in the world. By procuring energy-efficient products, federal buyers can reduce energy consumption and achieve cost savings. The aggregate effect of these purchasing decisions is enormous. Dr. Payne is also part of a multi-lab team providing institutional change support to federal agencies implementing their [Strategic Sustainability Performance Plans](#).

Liisi Liivlaid, Senior Officer, Estonia Ministry of Environment

11

Liisi Liivlaid studied environmental technology at the University of Tartu. Ms. Liivlaid has been working in Estonia's Ministry of Environment since 2012 and has covered the topic of GPP since the beginning of 2013.

Please submit any questions through the “Question Pane” of the GoToWebinar panel

Questions

How did we do?

Your feedback is important! Please complete the poll on your screen

THANK YOU!
